# THE LANCET Commission on Global Surgery

## II. Working Group Outputs

- A. *Written.* By Monday 10<sup>th</sup> May 2014, each working group will submit a 4-5 thousand word output document summarizing the work delineated above. The working group output documents will be the substance of the final commission report, and will include:
- a. At least 2 tables and 2 figures to be used in the commission report.
  - b. Focused recommendations to primary, secondary and tertiary audiences:
    - i. Primary audiences: Heads of state, ministers of health and finance, global health agencies, large-scale funders
    - ii. Secondary audiences: Implementers of national surgical services
    - iii. Tertiary audiences: Other non-governmental organizations, academic institutions, surgical colleges, corporations, and other stakeholders as determined by each working group
- B. *Presentation.* During the second commissioners meeting, each working group will present on their topic to the larger commission group. This will be a 15-minute presentation with an hour for commentary and review.

CANCER CONTROL

## Proposed Timeline

### **January**

Initial working group teleconferences

### **February 5-6**

First working group sessions during the Toronto Launch Meeting. By the end of the meeting, the working groups will have determined:

Content: The body of the work which needs to be done

Process: The work plan for the coming months

### **April 4**

GTFRCC Meeting at ESTRO, Vienna. Each working group will report to the larger task force on interim progress

### **June 1**

Each working group will submit their initial findings for the investment calculation and Output Document, including tables, figures, and recommendations to be distributed to the task force for review

### **June 3**

ASCO Consultation meeting on Health Systems Readiness

### **September**

GTFRCC Meeting at ASTRO, San Francisco (tentative). Presentation of investment framework and preliminary results

### **November 15**

Final Draft Report to Secretariat, including key messages and recommendations

### **December 3-6**

World Cancer Congress, Melbourne. Presentation of GTFRCC results and recommendations
